Motivation Letter

If re-elected as president, I shall focus on six challenges:

- Continue to strengthen public as well as informal communications with authorities, the party and Chinese think tanks.
- Continue to launch thematic publications to steer a discussion through publications e.g. on the environment (COP26); cyber-related issues and Standards.
- Maintain our recovered media profile to shape the public debate, to bring a sense of realism to Chinese and foreign stakeholders in times of nationalism and misperceptions.
- Deepen coordination on lobbying with the American Chamber and EU member states chambers.
- Continue building a strong relationship with the European Commission and the European Parliament.
- Provide strong engagement opportunities for each of our seven chapters by strengthening their communication toolbox. Improve local chapter media profile
